University of Tsukuba

Work Organizing

The activity organizing is instructed and supervised by National Taiwan University, Students Affair Division and Extracurricular Activities Section. There are about forty students preparing the camp together. The Organizing committee consisted of chairpersons and four divisions – activity division, academic division, executive division and public relations division. Each division is responsible for different aspects of the camp.

Time Table

Program Introduction

Orientation and Welcome Dinner

Delegates will sit with their group leaders and group mates and have delicious dinner. Meanwhile, faculty will introduce themselves and the programs of the camp.

Opening

We will invite our president and dean to give speech to greet the participants. Participants from each university will introduce their university and country to others using visual aids or computers. Delegates can know more about different countries and universities in this event.

Laboratory Tour

Delegates will visit some laboratories in NTU. The pioneering researches and new inventions will be shown to delegates.

Dinner with Professors

We are going to invite NTU professors to have dinner with delegates, providing delegates an opportunity to talk to professors.

Seminars

There will be at least two seminars throughout the camp period. Topics could be science and technology related or about economics. Professors of National Taiwan University and well-known companies will be invited to join the seminars as instructors, to give speech and share experience with delegates. Participants will exchange their own perspectives and views. We will put emphasis on the interaction between instructors and delegates.

Firm Visiting

Delegates can understand the companies' operation and industry by visiting firms. Talk between company managers and delegates will be arranged.

Sightseeing

Taipei City Tour

Taipei is Taiwan's largest city as well as its economic, political, and cultural center. It is a modern cosmopolitan metropolis with a lively and diversified face, filled with exuberance. Its buildings provide much of the diversity. Taipei has the world's tallest building **Taipei 101**, and delegates who are fond of historic sites and old streets will not want to miss the work of traditional master builders evident on Dihua Street in the Dadaocheng area or the Longshan Temple in the Wanhua district, as well as other places. We will visit the internationally renowned **National Palace Museum** which has an inexhaustible collection of precious historical Chinese arts and artifacts. On the city's outskirts, the **Yangmingshan National Park** has unique volcanic terrain, a rich variety of forest vegetation, and an extensive network of hiking trails, making it a popular destination for visitors from the Taipei area and elsewhere. Yangmingshan is also the place where we plan to visit.

Hsinchu City

Taiwan's the other AEARU member TsingHua University is right located in Hsinchu City. The town of Hsinchu is famous for its Science-based Industrial Park. It has gained considerable prosperity and an international reputation since the creation of the Hsinchu Science-based industrial Park.

Nantou County

Nantou County lies at the geographical heart of Taiwan and is the only county that does not border the coast. Nantou covers an area of 410 square kilometers of mainly mountainous country. The county's abundant natural beauty makes it an excellent place for sightseeing. The area is blessed with a number of interesting towns, forested mountain, and clear streams at Shitou, Shanlinshi, Sun Moon Lake, and the Formosan Aboriginal Culture Village. In Nantou, we expect delegates can see glamorous scenery and experience aborigine's culture.

Talent Show

This is the time for delegates to give a performance and show themselves. All kinds of performance will be encouraged.

Ball – The dancing party

This is an official dancing party. All participants have to wear suit or pantsuit. Gentlemen should invite ladies dance. Meanwhile, there will be performance on stage.

Closing Ceremony

The closing ceremony is the end of the camp. Slide shows which recorded the unforgettable memories of the camp will be shown. Certificates and souvenirs will be presented to delegates. Some award-winners will also be commended here.

Farewell

Time to go home, our faculty will escort delegates to the CKS Airport.
