

**AEARU and APRU Joint Symposium on
Earthquake Hazard along the Pacific Rim-Global
Watch and Environment Impact**

April 21–22, 2006, San Francisco, US

co-hosted by

UC-Berkeley and Osaka University,

The 2nd research symposium in this series, Osaka University together with University of California, Berkeley played hosts at San Francisco from April 21 to 22, 2006. The symposium was held in conjunction with the 100th Anniversary of the 1906 San Francisco Earthquake. On the theme of “Global Watch and Environmental Impact”, topics in focus included unified international warning networks, seismic sensing technologies, satellite damage mapping, ground strengthening techniques and public roles. A total of 76 participants from 29 AEARU/APRU member universities and other organizations were present at the symposium.
